5 Year Private Well Renewal

Property Owner_____ Phone No._____

Property Address_____

Is property served by Municipal Water System?   Yes/No

WATER UTILITY REPORT

BACTERIOLOGICAL WATER SAMPLE:

DATE TAKEN_____

RESULTS_____

The sample kits that each resident needs can be obtained at the Wisconsin Rapids Waterworks and Lighting Commission, which is located at: **221 16th Street South in Wisconsin Rapids**.

After a safe sample is obtained, a 5 year well permit will be issued.

Dear Well Permit Owner,

The Nekoosa Waterworks department is currently updating their well permit ordinance to comply with current Department of Natural Resources standards. Since your permit is set to expire in 2015, we have enclosed a well permit application. Each resident will then have to take a sample from their well, or wells, to the Wisconsin Rapids Waterworks and Lighting Commission. The sample kits that each resident needs can be obtained at the Wisconsin Rapids Waterworks and Lighting Commission, which is located at: **221 16th Street South in Wisconsin Rapids**. The Nekoosa Waterworks Department has already contacted the Wisconsin Rapids Waterworks and Lighting Commission, and the cost for the sampling kit and testing is $20.00. Each resident will have to obtain a sampling kit, obtain a sample, and then take the sample to **221 16th Street South in Wisconsin Rapids**. The Nekoosa Waterworks Department will need a copy of the results from the bacteriological tests, as well as the completed well application permit. The paperwork can be dropped off at the Nekoosa city office. The Nekoosa Waterworks Department would like to **thank you** for your cooperation during this matter.

If your well is abandoned, please contact the Nekoosa Water Dept. during business hours (7-3:30) so we can schedule a time to inspect and remove you from the well permit list.
